12 January, 2021

Dear Breandan Considine,

On behalf of the School of Computer Science, it is our great pleasure to award you a Computer Science Teaching Assistant Award for Fall 2020. This award recognizes teaching assistants who regularly inspire and challenge undergraduate or graduate students. We feel that this year, you exemplify the ideals of this award and are deserving of this recognition.

In the nominations received for Software Engineering for Building Intelligent Systems (COMP 598) you are praised for the tremendous support given to students during tutorials, office hours, and virtual meetings. Students appreciated your quick responses to questions and the help you provided with technical issues. They value your compassion, your readiness to listen, and your understanding of their needs.

We would like to thank you for your continuing contribution to the academic experience of students in the School of Computer Science. Your efforts and dedication have not gone without notice! Your leadership and passion set an inspiring example for all of us.

Sincerely,

Bettina Kemme
Director
School of Computer Science
